Department of Health Attended World Expo 2020 Dubai
The Project of Study and Preparation for Bidding of The International Conferences and Exhibitions
By Thailand Convention and Exhibition Bureau (Public Organization)

Department of Health led by **Dr. Suwannachai Wattanayingcharoenchai**, Director-General of the Department of Health and **Mrs. Napapan Nanthapong**, Director of Bureau of Environmental Health received the honor from the Thailand Convention and Exhibition Bureau or TCEB to participate in the project of the study and preparation for bidding of the international conference and exhibition at the World Expo 2020 Dubai, The United Arab Emirates (UAE) between 11th- 15th March 2022. The objectives are to raise awareness and acquire knowledges and understandings regarding management of international conferences and exhibitions for government and private sectors, and to prepare the corresponding Thai agencies for bidding and hosting the global conference.

The theme of the World Expo 2020 Dubai was **“Connecting Minds and Creating the Future”** through sustainability, mobility and opportunity. The Expo presented advance mobilization connecting among people, organizations and countries, sharing the knowledge of the innovation, and inspiring people around the world to cooperate and create sustainability towards the future. TCEB team and the executives of partner agencies visited the pavilions and exhibitions. Each participating countries demonstrated their own pavilions expressing immersive cultural experiences of which made the countries unique. Those included unique architecture, culture and inspiring innovations. For Thailand Pavilion, it demonstrated the compromise between state-of-the-art technology and traditional charm which was designed on a theme of “Mobility for the future” for expressing Thailand’s creative advances in the fields of transportation, logistic, digital connectivity as known as Thailand 4.0 and personal mobility.
